

Chirag Chotai

A strong local voice, fighting for Aylesbury

Chirag is the only candidate who can turn local pressure into real results

About Chirag:

- ✓ Local Liberal Democrat unitary councillor, dealing daily with residents' issues — from roads and planning to housing and community safety.
- ✓ Lives in Aylesbury with his family and understands the real pressures of work, childcare, commuting, and the cost of living.
- ✓ Senior operations professional and small business owner, with real-world experience
- ✓ Known locally for being visible and responsive, taking on casework and seeing issues through with residents, officers, parish councils, and the police.

Aylesbury and its surrounding villages don't need another well-known name with good intentions. They need an MP who turns pressure into progress, turns growth into benefit, and turns local frustration into results.

I am standing because this constituency deserves compassionate, focused leadership that unifies people to build a strong team for Aylesbury.

I live here. I raise my family here. I experience the same daily pressures residents raise every week: traffic that steals time from family life, pressure on school places, difficulty accessing a GP or dentist, rising costs, and local services stretched too thin — **ALL OF IT!**

If something doesn't work for families, children, or older residents, it isn't working — and **it needs fixing.**

Everyday life has become more difficult for many people in Aylesbury and its villages and I believe we can change that through focused leadership.

Chirag Chotai

Only a vote for Chirag Chotai will:

Get Aylesbury moving again!

Traffic isn't just annoying — it steals time from families, hurts local businesses, and makes everyday life stressful.

- Roadworks that **finish on time** — not “whenever”
- Proper coordination so one set of lights doesn't **paralyse** the whole town
- Growth that comes with roads, **not excuses**
- Infrastructure before housing — not apologies afterwards

You shouldn't need patience just to get to work or school. We all deserve better than gridlock by default.

Get NHS care when it matters

Our doctors and nurses are doing their absolute best but the system around them is failing. People are waiting hours in A&E corridors; **12 hour waits** are becoming normal & GP appointments feel impossible to get.

Chirag will push relentlessly for:

- **Real investment** in GP surgeries and community care
- **Ending corridor care** — patients deserve dignity, not trolley queues
- Proper mental health support, especially for children and young people
- Planning **NHS capacity** around real population growth, not old numbers

Protect the places we live in

Too much building. Too little thought. Too many green spaces **lost forever**.

Meanwhile, fly-tipping is out of control — costing local councils and housing providers millions that should be spent on services, not clearing the mess left behind.

Chirag will fight to:

- **Protect green spaces** and countryside around Aylesbury
- Stop the sell-off of community land
- Get tough on fly-tipping and waste dumping
- Demand cleaner streets and safer parks for families and children

Once green space is gone, it's gone for good. We **must protect it now!**

Why me - and why now?

I may be newer than some, but that is a strength not a weakness!

I bring:

- Proven local delivery, not career drift
- **Energy, credibility, and urgency**
- A determination to grow the Liberal Democrat presence in Aylesbury & its villages

I am driven by a simple test: if we are not getting the basics right for our residents, then we are not doing our job — and **I intend to fix that.**
